PMR (262)483: Selected Topics in Polymer Technology

3(3/3-0/0)

Prerequisite Consent of the instructor

Course Description

Specialized topics in polymer technology not covered in PMR 381 or PMR 481. Topics are to be selected on the grounds of their relevance to the current needs of the polymer industry.

Objective

To complement and expand the objectives of PMR 381 and PMR 481 to address specific problem areas, and to keep abreast of new developments in polymer technology.
